This Preliminary State Plan map depicts changes under consideration by the New Jersey State Planning Commission. The changes may or may not be adopted by the Commission and thus have no standing until the new plan is adopted.

The State Plan is not itself a regulation but a statement of State policy that has been adopted by the State Planning Commission pursuant to statute to guide State, regional and local agencies in the exercise of their statutory authority.

Map was developed in part using digital data from the NJ Department of Environmental Protection, NJ Department of Transportation, NJ Department of Agriculture, and the Pinelands Commission. Parks and Natural Areas are based on files received from NJDEP Green Acres Program Recreation and Open Space Inventories as well as information received from Counties and Municipalities. As a whole, the open-space mapping should not be considered accurate or all inclusive. Roads are from Geographic Data Technology, New Jersey State Plane Coordinate System, North American Datum 1983 (NAD83).
